

THE MAN FROM TROY

Widespread Interest in the New York Senatorial Fight.

HILL SAYS MURPHY WILL GET ALL BUT SEVEN VOTES.

Cleveland's Friends Will Be Given a Chance to Vote for an Outside-Ballot Reform Proposed—The Nebraska Compromise. Only a Temporary Means of Breaking the Deadlock—Politics.

NEW YORK, Jan. 7.—Senator Hill left Washington for Albany yesterday, where he will remain until the caucus, which has been called for next Tuesday night, to nominate Edward Murphy, Jr., is over. Before he departed, he declared that there were but seven opponents of Mr. Murphy among the Democratic legislators.

The political turmoil in the State is attracting attention from Democrats all over the country. Prominent politicians here are receiving scores of letters asking how serious the situation is. People seem to be especially anxious to know how soon an open breach will occur between the President-elect and the machine leaders. That there will be a breach, they regard as certain.

After spending a day or two or less in conference and conference with Richard Croker and other Tammany leaders and communicating with Bush McLaughlin, Speaker Sulzer sat in the Hoffman House last night in company with Lt.-Gov. Sheehan and Police Commissioner Morris and, it is presumed, with the committees in his inside pockets. They did hear from Mr. McLaughlin, but it is understood that the Kings County veteran leader still refused to pledge himself to use his influence to get his seventeen Assemblymen and two Senators to vote for Murphy on the first ballot in the caucus.

Mr. Sulzer was asked what chairmanships had been determined upon.

"If you know," he said, "you know more than I do."

Lieut.-Gov. Sheehan was appealed to for information. "I decline to say anything for publication," he answered, just as Senator Hill would have said it. "There is one thing I want to say," remarked Mr. Sulzer, "and that is, that I believe the ballot law will be materially changed. Mr. Croker has secured from Illinois specimens of the ballot used there, and I have one of them here. It is a ballot with a slot. I think the law will be amended so as to allow the blank ballot to be used and also a poster to be stuck on any part of the ballot. The law in Illinois comes as near as any state having a similar ballot system to that of the Illinois ballot block is yet discovered."

Specimens of the Illinois ballot are on exhibition at Tammany Hall.

The Tammany situation remains unchanged. There is reason to believe that the name of some King's County statesmen will be put before the caucus, at least all those present in the meeting will be asked to do so. Mr. Cleveland will have an opportunity of doing so by voting for some good Democrat other than the man from Troy.

STATE LEGISLATURES.

A SENATORSHIP NOT INVOLVED IN THE NEBRASKA COMPROMISE.

OMAHA, Neb., Jan. 7.—New interest was given the senatorial situation by the combination of Democrats and Republicans in organizing the Upper House of the Nebraska Legislature. It amounts to a notice that the man who is elected must be one whom the anti-monopoly elements of all parties can unite. It is still asserted, however, that the action of the Democrats in voting with the Republicans had nothing to do with the senatorial situation and was only intended to afford a way out of the deadlock. The Republicans, however, are not satisfied. Independents for the place are Congressmen McElroy, Congressman Bryan and Gov. Boyd. In the order named, McElroy has been the decided favorite in the situation at present. He is very acceptable to both parties. Bryan's strength is a matter of much uncertainty. He is not popular in the state, but is a strong independent party, but is still strong enough to be a formidable aspirant. Boyd has not shown himself yet, but is considered more as being an excellent candidate to compromise upon. Another compromise candidate who is coming into prominence is John H. Powers, ex-President of the National Farmers' Alliance. Powers did not make any formal sign of his desire to become Senator Paddock's successor, but he is being talked of to an extent beyond his guess.

On the Republican side the candidates are more numerous and have been up to strength. Senator Paddock has been given up by the leading members of the party. Others are pushing the claims of Gen. Gento M. Lamberton, present Assistant Secretary of the Treasury. One of the leading men in the party in connection with the place, as is also Lieut.-Gov. Majora, their candidacy is merely nominal, however.

John M. Thurston has a following but is not pushing a canvas. Plans are now being laid, which if successful will bring the Democrats and Independents together in caucus next week to determine the candidates.

The Democrats hold the key to the situation. If the anti-monopoly Republicans do not bolt the cause no man can be elected without Democratic support. In view of this the supporters of McElroy feel confident of his success.

PLANNING FOR PEACE.

TOPEKA, Kan., Jan. 7.—The Republican and Populist bodies held a joint conference last evening for the purpose of devising some plan whereby to preserve peace at the organization of the House. The intense feeling existing during the election had created over the contest in the Supreme Court had made the adoption of such a plan a necessity. The Republicans and Populists agreed to call a meeting of all doors of the House to all accepting members, contestants and newspaper reporters and agreeing to allow Rosenthal, the Democrat who had been chosen by the Convention of the County Clerk, to participate in the organization. The conference adopted the proportion making it subject to ratification by the two parties. The Republican caucus ratified the plan, but the People's party caucus adjourned without action.

Goughs.—Use "Brown's Bronchial Troches." They possess real merit. Sold only in boxes.

SHIPMENTS STOPPED.

The Burlington Route will receive no more grain for St. Louis.

The grain blockade in this city has attained formidable dimensions. For a long time the elevators have been crowded to their utmost capacity and have not been able to handle the receipts. This has led to a freight car famine, as the cars are kept on the track for loading and unloading, owing to the impossibility of unloading them. The range of the glut of grain is largely due to the condition of the river, for a number of weeks past. The lowest water level ever recorded, and navigation was practically suspended early in December, while before that time the water level had been raised by the tides. Efforts have been made to relieve the pressure, but have proved unavailing. The following order has been issued by the manager of the Burlington Route and addressed to all its agents:

"On account of blockade, and elevators being about full of grain, the holding of grain, or the track or elevator delivery, must absolutely stop. You will notice to all that cars are held to the limit of their capacity, and, if filled to the limit, are not to be loaded. This applies to all persons who have contracts and will be accepted, if shipping directions do not conflict with above. This cancels all previous orders and contracts, and all new contracts will be held in abeyance until further notice. The Burlington Route will only be permitted at the option of the company."

This order will remain in force until the pressure is relieved.

COSTUMES FOR CHILDREN.

Pretty Costumes for Small Boys and Girls.

A handsome coat for a girl of eight years comes in dark blue pilot cloth with deep collar and cuffs of Persian lamb, smocked pearl buttons being the only trimming used. The coat reaches to the knees, and the legs are protected by cloth gaiters of the color of the coat. A seal cap with a border

comes with the coat.

NO MORE POND ICE.

The Health Commissioner Can Refuse to Issue Permits.

JUDGE VALLIANT REFUSES TO GRANT AN INJUNCTION AGAINST DR. BRENNAN.

A Decision of Importance in Favor of the Health Department—Breckenridge Jones' Appointment as Receiver of the Iron Hall Confirmed by Judge Klein, Who Gives Him Broad Powers

Judge Valiant refused this morning to grant the writ of mandamus against Health Commissioner Brennan, which was applied for yesterday afternoon by Louis Rohlfing. The object of the writ was to compel the Health Commissioner to grant Rohlfing a permit to cut ice on a pond in the northwestern section of the city for purposes, as he alleged, of cooling wine in the vaults of a wine company. Rohlfing stated that he had made the application for the permit in due form, and had presented a bond in the sum of \$2,000 duly approved by the Mayor, as provided by law, and the Health Commissioner had refused the permit.

Judge Valiant, in refusing to grant the writ, said that under the ordinance it was a discretionary matter with the Health Commissioner whether he would grant permits of the kind, and it was not the province of the court to interfere unduly with that discretionary power. An ordinance is now pending in the Municipal Assembly to prohibit ice cutting altogether from the city, provided the man of the disease may be the man of propagating disease in the summer months. City Councilor Marsh has informed Health Commissioner Brennan that he can grant him to grant or refuse permits, and Dr. Brennan is exercising his authority for the sanitary interests of the city.

An Iron Hall Decision.

An important decree was rendered by Judge Klein in the case of Romeo L. Biskup against the Supreme Sitting Order of the Iron Hall, in which Breckinridge Jones was appointed receiver of the order for the State of Missouri.

The decree proceeds to confirm the appointment as receiver of the authority of the order to take in all its possessions and hold all the property, real, personal and mixed, belonging to the defendant corporation and to require the corporation to make over to the receiver in his name all receiver and collect from all agents, attorneys, branches and bankers of the order all moneys, claims, debts, etc., and every other description held by them for the order.

All the officers, agents and employees of the order are directed to receive and to deliver to the receiver all funds belonging to it, and also to deliver all property of every description to him under penalty of being reported to the court, in case of refusal, for contempt, and the same are required to abstain from paying out any money for any purpose whatever.

The receiver is further ordered to hold all property and funds so collected for the benefit of the creditors of the order and to send to each and every creditor whose name is on the books of the order a statement, to be filed out and returned to him, setting forth the nature and amount of the claim. He is also to publish in four weeks in the "St. Louis Republic," "The Times," "The Tribune" and "The Post," two German, and in two similar papers in Kansas City, and one English paper in Hannibal, Mo., St. Joseph and Springfield, Mo., a notice calling on the members of the order to meet him at the hall and to hope of passing it through both Houses before adjournment.

FOR THE WORLD'S FAIR.

Assistant Commissioner of the General Land Office Manning P. Ross is busily engaged preparing the exhibit of that office for the World's Fair. The exhibit will embrace maps and plates showing the public lands, their location, character, products, etc., the soil, mineral and agricultural resources of the various sections of the country. It is proposed to place before the public information as to the development of the country, the growth by session and purchase, the development of the required territory, the advancement of the Government surveyor, the system of surveys adopted by the Government exhibiting the extent of the surveyed and un-surveyed portion of the public lands in the States. The Committee on Public Lands will report a resolution giving a day for their consideration. The Topeka bankrupt friends of this meeting are still hopeful of passing it through both Houses before adjournment.

A CHAOS INQUIRY.

It is proposed by the managers of the House to give Mr. Enloe a day for the discussion of his report and resolution on the Railroads and Banking. The report is to be given for the consideration of the resolution for the election of Senators by the people. The idea is to have all the measures passed during the session of the railroads and banking. The Committee on Public Lands will report a resolution giving a day for their consideration. The Topeka bankrupt friends of this meeting are still hopeful of passing it through both Houses before adjournment.

A DANGEROUS AGE.

Young men between 23 and 33 are in the greatest danger, and, having had as a rule good education and aptitude, are led by desire that ought to be a good counselor. Many of those do a great deal of harm by repeating ancient proverbs that have caught a flavor of wisdom by long currency. One of these, constantly heard and enduringly mischievous, is that "Two can live as cheaply as one." A great many are led by its ceaseless iteration. They have found out what a monstrous falsehood it is, and have suffered intensely from its adoption. The saying is so transparently false that it is strange any one should believe it. But there is a certain morally family man of middle-age or older, monetarily independent, perhaps rich, and carry weight, therefore. Besides, they are likely to recall their past, showing how they had nothing when they married, how they prospered, notwithstanding, and how their strength, notwithstanding, increased with their prosperity. Now do they desire to misrepresent. Their facts are correct, but not their inferences. They are shrewd, for the most part, with an eye to business, and to promising chances, and they readily get on. Getting on was much easier in their time than it is now with the greater and greater number of opportunities fewer than they were then. The young men they try to encourage and unwittingly deceive may not be at all of their practical sort. If they follow the advice given they may rise, and are likely to, indeed. To-day conditions have altered, and in big cities, especially developed minerals, the lands segregated to railroads and the development or settlement of adjacent territory.

A GOOD INCOME.

On April 4, to \$5,000 a year a bachelor may here enjoy luxury, which as a husband he could scarcely compass with five or six times the amount. If he cares for society, he is generally welcome to pleasant, refined circles, etc., and can keep up his social position, and, notwithstanding his bachelorhood, has good manners, little else is required in one's outward relation to one's acquaintance.

A bachelor may spend his days or evenings advantageously at a public library. He may belong to a club for a small annual outlay; has his address there; read the newspapers and magazines there; and, if he has no time to go to a club far more the boasted and uncertain comforts of a home for \$30 or \$35 a year, when a home, with any approach to such convenience, smoothness and gratification must be an establishment that only a fortune can support.

The biggest thing the new City Treasurer will find in his office is a deficit.

WHEN Europe learns that St. Louis is selling two beers for a nickel there will be another rush of emigrants.

SHOULD Mr. Elkins remain Secretary of War long enough we might load our canons with golden nuggets.

A NEW City Treasurer was elected last night but nothing was done towards filling up the hole in the money chest.

THE CZAR might get some valuable humanity pointers by sending over a Russian committee to investigate the American prison contract system.

If Secretary Foster, contrary to law, sold supplies to an asylum of which he was a trustee, it is quite enough to arouse the tin-plate sense of right in the bosom of Gov. McKinley.

"I ADVISE the greatest possible degree of care in disposing of the money collected from the tax-payers," says Gov. Francis. This advice applies equally well to States and municipalities.

THE solid support of one's own State is very useful to an aspirant for cabinet honors, but it must not be too noisy. Mr. Cleveland seems to have "views" on the subject of brass bands.

If the Marquis de Mores can put the Panama iniquity off on the Jews he will be doing his brother Gauls a great service. They never needed a scapegoat more than they need one now.

MR. CLEVELAND's handwriting is described as bold French clarendon, with destiny loops. The Republican experts ought to have discovered those destiny loops before so much good campaign money was put out.

MR. WATTERSON says that the money devil stands like a hungry lion across our national highway. Never mind, Henry. There are bold spirits that are getting around to his rear, and they will give him a twist that will make him spit fire.

ONE of Mr. Lodge's friends says that he has set an example for college-bound young men. It is safe to say, however, that not many college-bound young men who go to Congress will imitate Mr. Lodge in pushing force bills prepared by election sharps.

It is said that Senator Carlisle is fearful of the Treasury Department because Manning and Windom lost their lives while serving as its Chief. The worse fate of Charley Foster, who lost his reputation (what there was left of it), does not seem to worry him.

It is alleged that the old firm of Harrison & Miller will not be renewed because the senior did not put the junior on the Supreme bench. But Miller has no right to complain of this after his confession that he wasn't lawyer enough to cope with the trust attorneys.

THE discussion by the Republican press of the question as to how the Democrats are to provide revenue to meet the Republican deficit is amusing. The deficit is a big one, and the Democrats will do the best they can. They are very certain to know how to handle it when the time comes.

A GREAT deal has been said about Chicago's success in consuming smoke, but all the talk on this triumph is outside the Windy City. The truth is that the smoke is so thick there that on some days the tops of buildings are invisible, and when a cyclone is not sweeping from the lake

there are no rifts in this black pall. St. Louis' big black blanket is a peculiarly irritating nuisance, but we are really not suffering more than our neighbors.

REPRESENTATIVE KILGORE of Texas is not only the man who in '89 declared that Mr. Cleveland would be President again, but he is the man who burst open Czar Reed's locked doors and damaged a Republican statesman who stood too near them. The damaged statesman accepted his apology but afterwards spoke of him as "that Texas steer." Mr. Kilgore has reason to be proud of himself.

AT last, with the second of its new quadruple Hoe presses set up and in working order, the Post-DISPATCH hopes henceforward to silence all complaint from its patrons in regard to late delivery of their papers. For some weeks past we have been compelled to depend on one of our new quadruple presses, and, although it was guaranteed to print 48,000 eight-page or 24,000 sixteen-page papers per hour, a great many of our carriers have been delayed for hours every day in delivering the paper over their routes. We now have a press plant capable of handling the circulation of any morning paper west of New York, a press plant such as no other afternoon paper in the United States owns or needs, and, barring accidents, will have it in complete working order for to-morrow's and all subsequent issues.

THE Meaning of the Murphy Incident.

Of course the chief value of the incident to the country at large comes from the light it throws on the course of the executive who will shape the policy of the next administration. His election last November was distinctly a personal victory. The Democrats who demanded his nomination at Chicago knew very well that if elected he would not respond readily to party dictation; if they did not know this they had studied his former administration to little purpose. While anything like an open rupture with his party may be nearly or quite out of the question it is more likely that the party will bend to his will than that he will do its bidding against his inclination.

To Say Nothing of the Married Lady.

From the Philadelphia Times.

A single lady's hat in a theater will obstruct the view of half a dozen or more who sit behind it, and when it is remembered that every row of seats in a place of amusement is studded with high hats and usually with higher trimmings, it will be appreciated that more than one-half of the attendants at theaters are hindered in their view of the stage and play by a habit that, under the circumstances, has a decided flavor of vulgarity.

WILLIAM F. HARRITY has an income of \$20,000 a year as President of a Philadelphia business concern.

NORTHAMPTON, MASS., receives from E. H. Lyman of that city a \$100,000 Academy of Music bill by him last year.

It is said that his success in various enterprises is making Secretary of War Elkins one of the wealthiest men of the country.

The violin upon which George Washington's wedding march was played is in the possession of a musical society at Sunbury, Pa.

THE home life of H. Rider Haggard is beautiful in its simplicity and genuineness. The day opens with the family prayers, which are read with gentle reverence by the master of the house in the large square entrance hall.

SAMUEL S. SANFORD, who is now the acknowledged patriarch of the minstrel profession, will celebrate at Philadelphia this year the semi-centennial of American minstrelsy, as well as that of his own connection with it as performer and manager.

"I took nothing," he said, "but my own property, with the exception of one or two small articles which were put into the wagons by mistake. I shall, of course, send them back."

THE LADDER BY WHICH HE ROSE.

Mr. Cleveland is accused by Republican lookers-on of "kicking down the ladder by which he rose," the ladder in question being represented as made up of ten politicians of note, who are said to have "elected" the large gentleman to whom it is a performer and manager.

THE Michigan Legislature, being now Republican, will repeal the law providing for the election of presidential electors by congressional districts. This law would not be disturbed except for the fact that it elects Democrats instead of Republicans.

Without the Michigan electors, and by the time another presidential campaign rolls around the Wolverine State will doubtless be all right.

THE Council made an excellent selection for the vacant Treasurership in Mr. Martrom D. Lewis, whose honesty and capacity have been proved in public office.

It is fortunate for the city that the Council has elected a man of whom honest and capable administration may be expected.

The conduct of the municipal authorities with reference to the office and the crime committed under his predecessor demonstrates that there is no other security for the fund except the character and ability of the Treasurer. He is a law unto himself, and the violation of the statutes in the conduct of his office is an offense for which he will have no difficulty in obtaining free forgiveness.

THE Michigan Legislature, being now Republican, will repeal the law providing for the election of presidential electors by congressional districts. This law would not be disturbed except for the fact that it elects Democrats instead of Republicans.

THE ladder, however, is a product of an imagination wholly given over to "practical politics." There is a rumor about Mr. Cleveland was nominated by the Democratic state convention in 1888, but the people in spite of the most desperate efforts of the ten gentlemen who compose this ladder. It is also believed that he was elected without the help of any of them, although they all went sullenly to work for him and perhaps picked up a few votes here and there in New York State which were not needed. Bourke Cockran, who forms with Arthur Gorman the lowest rung of the ladder, made himself famous by a wonderful 2 o'clock-in-the-morning speech against the nominee, Charles A. Dana, who invented the epithet "stuffed prophet" and applied it to Mr. Cleveland, is made part of the ladder because he "elected" the prophet on a high protection-no-nigger domination platform of his own making. Senator Carlisle is fearful of the Treasury Department because Manning and Windom lost their lives while serving as its Chief. The worse fate of Charley Foster, who lost his reputation (what there was left of it), does not seem to worry him.

TO REVIVE ROWING.

J. A. St. John's Plan to Decide Sculling Championships.

THE AQUATIC PATRON MAKES LIBERAL OFFERS TO OARSME.

The Scullers Will Be Classified and Emblems Offered for Each Division—Lem McGregor Looking for Trouble—English Entries to American Stakes—Turf Gossip—General Sporting News.

Mr. J. A. St. John of this city, the widely known patron of aquatics, has lately been studying out schemes to revive interest in sculling. With the assistance of his friend, Michael Angelo Lane, Mr. St. John has hit upon a plan which he intends to put into practical execution.

"I propose offering professional scullers a chance next season," he says, "in order to revive an interest in the sport. I recognize the fact that there are a great many fast scullers for half a mile, besides many who can go a mile at top speed."

"Now, I propose giving or getting up a sweepstakes race for the half-mile, mile and three-mile distances, so that there will be a chance for three sculling championships. I will offer suitable emblems, which may be held by the winners of the several events until they are defeated. The principal condition I require is that the champion shall consent to challenge at his particular distance twice during the rowing season, and for an amount not exceeding \$1,000."

"My idea is to have the first race a sweepstakes of \$100, from each entry in the two short distances, and \$500 in the three-mile sweepstakes. The money taken in this way can also be divided, so that the first three men to finish in each race would receive a part. All three events could be decided one day, and the whole would be a grand affair with a good list of competitors and a splendid attendance. Of course, if there were many entries, heats would have to be rowed; but I think it would be sufficient if the management of the championship races be placed in the hands of competent men who enjoy the confidence of both the sculled and the scullers. Let me know what you think of the merits, and I believe that shell boats will once more enjoy the popularity that it should enjoy."

THE WHEEL.

The bicycle skate is one of the latest inventions in the sporting world. It consists of the application of a skate to the front wheel of a safety bicycle in such a way that the motive power is provided by the hind wheel, while the weight of the rider largely rests upon the ice through the skate. Opinion however, is still divided as to the merits of this invention. The first glide would seem that the combination of two such implements as a bicycle and a speed skating wheel is not practicable. The question arises, however, how a bicycle provided with a skate could possibly go faster than a bicycle without one, so long as the motive power is supplied by the hind wheel. An improvement to the bicycle state it has been suggested that the rubber tire be taken from the hind wheel, that it be supplied with spikes, which would enable the hind wheel to now the wheel is liable to slip. The bicycle skate is the invention of a 17-year-old boy, named Murphy, who works in a bicycle repair shop at Brooklyn.

THE RING.

Mr. Lem McGregor, the "St. Joe Kid" who employs his leisure time in teaching wealthy St. Louisians the many art is anxious to connect with some of the big-time athletic clubs in changing up his standards. Lemuel decided to make his debut in the following connection to the "Illustrated News."

Noticing by report that James Daly has just defeated Thomas McCarthy, I wish to let the world know that I am the author of the first weight, "ranging from 160 to 195 pounds. If I cannot make it with one, any other in my class will do. I am a member of the New York Athletic Club, and am individually made ready to be arranged hereafter."

It is a pity any meeting matches must choose, with us in Daly's class, is very anxious for a fight. Here is a chance for the "St. Joe Blizzard" to extinguish himself.

CONEY ISLAND CLUB'S RIVAL.

NEW YORK, Jan. 7.—The new up-to-date athletic association is rapidly assuming substantial shape, and already is being discussed the line of policy to be carried out in the conduct of contests. The incorporators of the new club propose to pattern their bouts after the style adopted by the New York and Manhattan Athletic clubs, and matches will be individually made ready for the actions of the ghosts whom they invite.

There is plenty of privacy in such mills and generally blood is freely spilt. But this is an element in pugilism that people at the ringside thrive upon, and disappointment is experienced by the spectators when there is not a generous flow of the "rub." An effort is being made to obtain a portion of the zillion estate near the Harlem River on the west side of the city, and the negotiations are progressing. The club people will put up a fine house, costing it is estimated, \$50,000.

ON TRIAL.

That's a good way to buy a medicine for a bad condition under which to sell it. Perhaps you've noticed that the ordinary hit or miss medicine doesn't affect it.

The only remedy of its kind so remarkable in its effects that it can be sold on the market is Dr. Pierce's Golden Medical Discovery. As a blood-cleanser, strength restorer, and flesh-builder there is nothing like it known to man.

What the trouble is in the liver or the blood, as Dyspepsia, Indigestion, Biliousness, and the most stubborn Skin, Scalp, and Scrofulous affections, it is guaranteed in every case to benefit or cure, or you have your money back.

To every sufferer from Catarrh, no matter how bad the case or of how long standing, the proprietors of Dr. Sage's Catarrh Remedy say this: "If we can't cure it, perfectly and permanently, we'll pay you \$500 in cash." Sold by all druggists.

Casteria
For Infants and Children.

Casteria promotes Digestion, and overcomes Flatulency, Constipation, Sour Stomach, Diarrhoea, and Feversickness. Thus the child is rendered healthy and sleep natural. **Casteria contains no Morphine or other narcotic property.**

"Casteria is well adapted to children that I recommend it as superior to any prescription known to me." H. A. ARCHER, M. D., 111 South Oxford St., Brooklyn, N. Y.

"I use Casteria in my practice, and find it especially adapted to afflictions of children." ALICE BROWN, M. D., 1057 2d Ave., New York.

Edmund Keran, a pikester and, incidentally, a Pittsburg contractor, has formed a Louisville Club. Billie Morris outlines his Louisville Club as fol-

low: Closson, Harlan and Sanders, bakers; Grim and Morris, bakers; Miller, first base; Schaeffer, second base; Shuster, shortstop; and Weitzel will be the outfield, as well as their absence. Mr. Pfleider will be conspicuous for his absence.

FOOTBALL POINTERS.
Fred Ritchie, the coach of the Young Athletic Club of Montana, has matched Danny Neesham and Billy Maher, the Australian.

John A. Thompson Sullivan's sparing partner did not suffer from appendicitis at Bellevue Hospital, New York City yesterday.

Charles Daly was "poached" for a \$200 gold watch and chain, and a diamond ring, and was sent to Charley by his deceased brother Dan, and for that reason the loss is felt rather keenly.

A Kansas attorney agreed in drawing a bill amending the state law governing shooting contests, which will be introduced at Jefferson City next week. The bill will be to prohibit the shooting of birds in Kansas City and St. Louis. The laws of the models, but the bill will not be quite as liberal as the law of either of these states. In the bill it will be allowed to shoot higher than four-ounce gloves may be used.

THE TURF.
English turfmen, having made an opening by entering horses for Washington Park stakes, threaten to invade the American turf, and will be heartily welcomed. Through Tom Ochiltree, the following entries have been made from England for the Future and Antecedent.

Col. J. T. North's mare—Burgundy, by Hermann Gross, by Scottish Chief; st. cl. Olive, by Hermann Gross, by Newcastle; Flaming Queen, by Thurston; Sires—Galopin, Wisdom, Barcaline, Morton.

Col. Broome's horses—Red Mare, by Thunderbolt; Dark Star, by Duke of Macheath; Sirs—St. Simon, Highland Chief.

Mr. Talbot's horses—Ada Pauline, by Fernades; Lady Pauline, by Stratton; Sires—Queen's Counsel, Sirs—Galopin, Arden.

Col. Hart's horses—Beauty Fair, by Tonner; Fair Rosamond, by Paragon; Sires—Prince Rudolph, Fullerton.

Col. Hart's carriage horses—Ivy, by Roseberry; Temper-Petticoat, by Blair Atholl; Misericord, by the Misses—Sires—Breakaway, Sirs—Fernandes, Sirs—Galopin.

Col. Hart's mares—Lady, by King George V; Lady, by King George V; Lady, by King George V.

In addition to this list, the small lot of twenty-three mares, purchased by Foxhall Keene and James H. Keene, are entered both stakes.

GLENS FALLS CYCLE RACE.

Advices from Australia are very interesting in regard to the Melbourne cup, which is not only the richest stake run in Australia, but the richest handicap in the world.

Greater crowds go to see the Melbourne cup than are to be found in attendance at the Epsom Derby, and as a general rule the contestants are more numerous than the spectators.

HUMPHREY'S, BROADWAY and PINE.

ST. LOUIS, Jan. 7, 1893.

The indications for St. Louis for to-day are at
light snow; stationary temperature.

It was our artist's thought (when he made the above sketch) to convey, BY MEANS OF HIS PEN, TO THE MANY READERS OF OUR ANNOUNCEMENTS, SOME SLIGHT IDEA OF THE MAGNITUDE OF OUR GREAT SPECIAL SALE OF MEN'S

\$25 and \$30 Suits, Overcoats and Ulsters for \$15!

Commenced Thursday morning and still in progress in our Men's Clothing Room, on first floor. We are confident that the many who have been jostled about in the great but good-natured crowd of buyers will say to their inquiring friends that our artist has been entirely too modest, for never in the history of the clothing trade has there been such a great sale as this one, where values have been so disregarded in the making of a price on the Newest and Best of Clothing. Those who have yet to buy had ought to come to-day, while many of the most desirable garments are to be had. Long Ulsters, Single and Double-breasted Kersey, Melton and Cheviot Overcoats, Chinchillas, Plain and Fur Beavers, all go, alongside of the best and most desirable Single and Double-breasted Sack and Frock Suits, for.....

\$15.00

No place else in St. Louis will you get such value as in our Men's Clothing Room.

School Board Affairs.

The Building Committee of the School Board yesterday afternoon examined the elevators of the new Board of Education building. The committee subsequently dismissed the charges of insolence to teachers preferred against the janitors of the Penrose School. This school, which is located on Locust street, was let to C. Andrews & Son for \$25, and a contract for plumbing Rock Springs School was let to John Quinn for \$9. The board fixed the value of the drawings of the new building at \$90, and decided to employ an expert to make a careful examination of the elevators before accepting them.

Waterson's Lecture.

Hon. Henry Waterson lectured last night at Entertainment Hall on "Money and Morals." He said that the desire for money was the predominant characteristic of American civilization, and that if anything could move the Government it was this indiscriminate passion for gain. The spirit of freedom in all things would eventually overcome the timid, shrinking lust for wealth, and the latter would continue to grow inexorably bound together.

RELIGIOUS NEWS.

Dr. Snyder Opposed to Closing the World's Fair on Sunday.

Rev. Dr. John Snyder, pastor of the Church of the Messiah, Garrison avenue and Locust-street, will have for the subject of his sermon to-morrow, "Why Should the Columbian Exposition Be Open on Sunday?" Dr. Snyder is opposed to Sunday closing and he is anxious to reach those who signed the Sunday-closing petitions. The meeting causing a great deal of discussion in religious circles, and since Bishop Potter of New York and Cardinal Gibbons of Baltimore came out in favor of opening the exposition on Sunday no controversy has been marked by much warmth.

FOURTH STREET AGAIN VISITED.

The Establishment of the J. H. Crane Furniture Co. Badly Damaged by Fire.

Shortly after 1 o'clock this morning an alarm of fire was sounded from the corner of Third street and Washington avenue, and at the same moment that the bell rang the alarm Officer Martin DeMeyer yelled to the watchman No. 20 engine-house, a few steps to the south on Third street. The

response to the alarm was prompt, and in a moment the streams were playing in on the building at the southeast corner of Fourth and St. Charles streets, just taken by the J. H. Crane Furniture Co. The fire had just moved in their stock, and the painters and glaziers were still at work. The boarding of the first floor of the building was nearly done, and, coming with it a mass of mattresses and light furniture. The entire street floor is a wreck, and will have to be entirely replaced.

The fire seems to have been caused by

smoke and water, and is a sorry-looking sight, and most of the stock stored there is ruined. The fire started in the rear of the basement, and caused a great deal of damage. The packing cases and furniture, however, worked well forward

among the packing cases and furniture,

however, was saved, and it was confined to the building in which it started. This morning, after 8 o'clock, engines Nos. 24 and 25 were pulled out, and the water they had pumped out during the fire.

Mr. H. P. Chalk of the Crane firm estimated

the loss of furniture at about \$20,000, partially

burned, but the amount of damage is not known.

As so many changes had been made lately, the building, which belongs to the Allen estate, was insured for \$32,000, in the following manner:
